AMARE

TECHNICAL RIDER

DJ EQUIPMENT

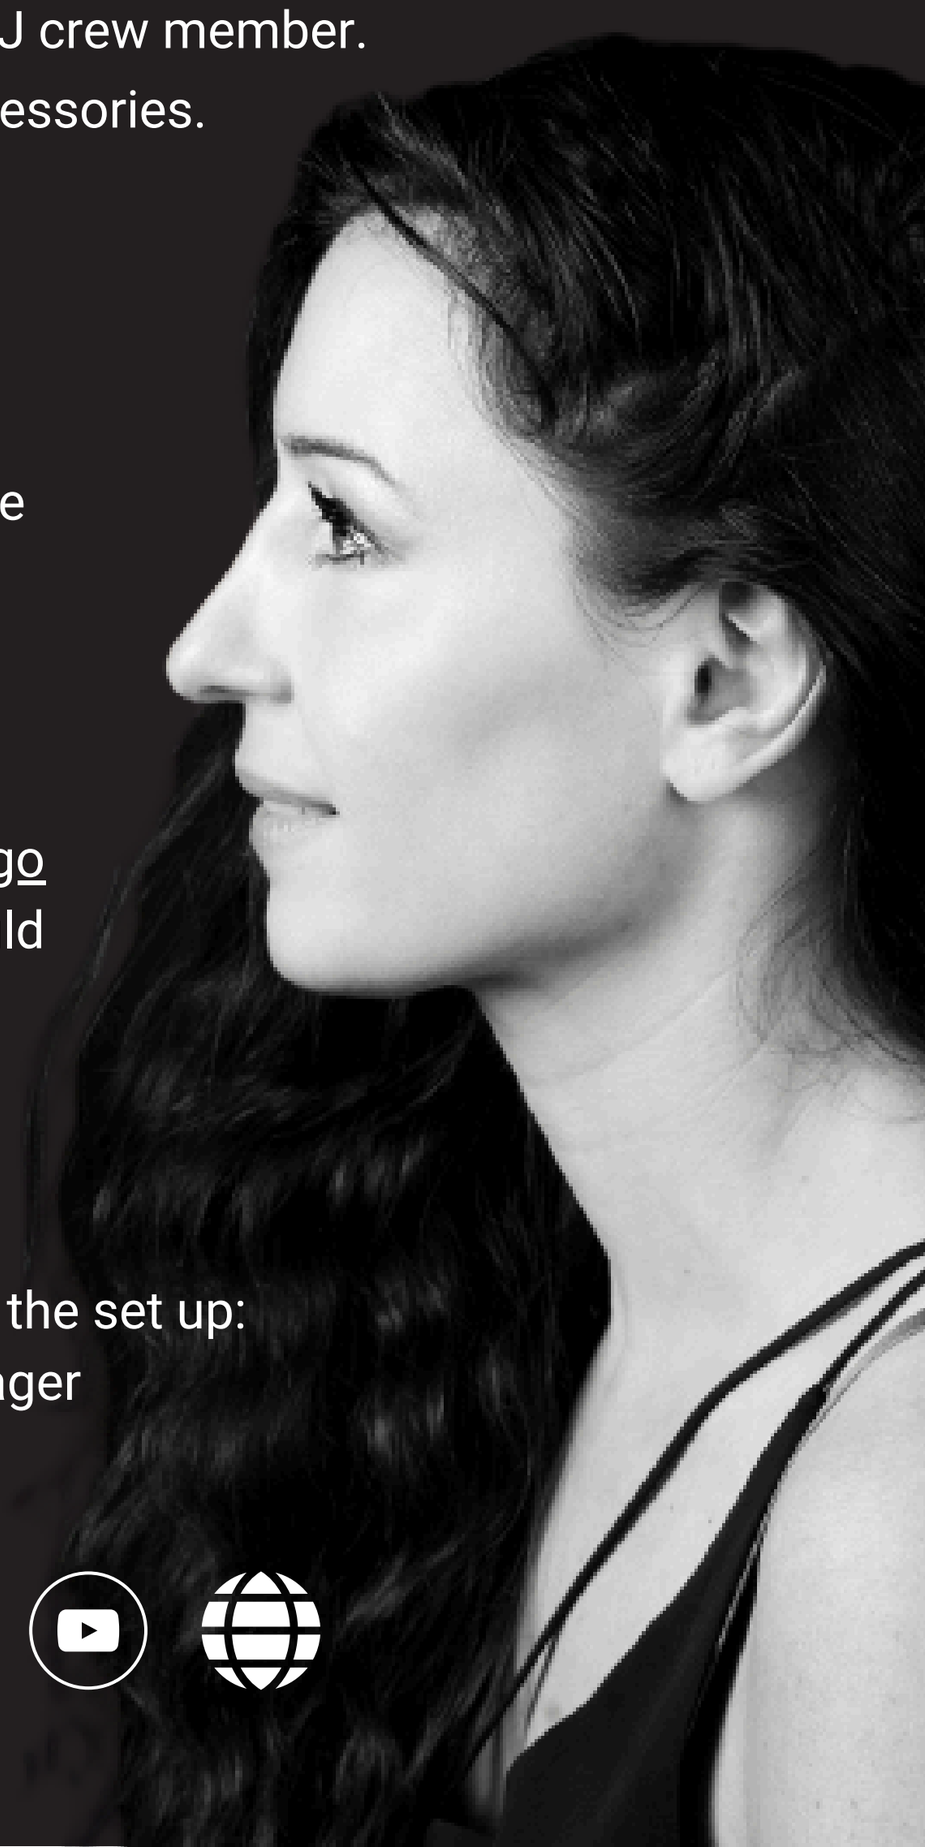

- professional DJ multi players min. **3 x** Pioneer DJ **CDJ-3000** updated to the latest firmware Link to update.
- professional DJ mixer: 1 x Pioneer DJ **DJM-V10** 6-channel updated to the latest firmware Link to update.
- All of the above **equipment linked** through an 8-port/1-gigabit network switch with Cat5e/Cat6 cables.
- All CDJ-3000 to be connected DIGITAL AND ANALOG to the DJM-V10 mixer
- All equipment must be set up and thoroughly tested before the event, with no broken faders/buttons.

DJ BOOTH

- 2 x booth monitors positioned at ear level (free from feedback), powered separately, and with volume adjustment controls.
- Solid desk: min. 1m high, 2x1m surface area
- Power supply at the table: min. 2 free power sockets for recording devices (with adapters for EU plugs).
- Enough space behind the DJ for video / photographer or DJ crew member.
- Table space in the DJ booth for drinks, bags and other accessories.
- Sufficient light on the DJ and equipment is essential.

SOUND, LIGHT & VIDEO EFFECTS

- DJ must be clearly visible to the audience.
- No lights in the eyes of the DJ - ensure the DJ is able to see the crowd
- Preference for warm colors
- Volume and light effects have to be at least at the same level as the artist playing after AMARE.
- To display the artist name: please use AMARE's official logo
- Video display: abstract images are preferred. Visuals should fit the music style and BPM (between 123 - 133)
